About the business (Continued)

Growth Plan:

- The Company must expand to the Global market, beginning with GCC countries
- Introduce new sports to the platform
- Launch a variety of new features to benefit end user (as mentioned above)
- We are on the verge of signing many new facilities in KSA

Exit Strategy:

The leading padel application in the world is currently Playtomic. In the past two years Playtomic have acquired five different booking applications. With the direction we are heading and the new facilities around the GCC that will be onboarding our platform, we are sure to attract companies like Playtomic. Being the number one booking app in the GCC is really the gateway for an exit strategy (being acquired) within the next 2-3 years. However, we are also confident that our user friendly app has the potential to acquire such companies and become the biggest booking app worldwide. We are on the verge of onboarding up to 15 padel facilities in KSA (Khobar, Riyadh, Jeddah) as well as setting up country launchers in Dubai, Doha, and Kuwait. With this expansion we anticipate that our current valuation of \$3,500,000 to increase X2.
